## BACKGROUND INFORMATION

This antibody is raised against a synthetic 6xHis peptide. It can be used for Western blotting to detect His-tagged proteins (6xHis or more) at the N-terminus, C-terminus, or within the protein sequence. It is also suitable for flow cytometry or immunofluorescent staining of His-tagged proteins.

## PRODUCT DATA

Multi-tag (including His) transmembrane protein transfected CHO cells were stained with either PE Anti-His antibody clone 1005AB (color-filled histogram) or an isotype control (gray histogram).
